

Angelo Charles Eron C. Blazado

IT Head | Full-Stack Developer | Systems & Network Administrator

aace70074@gmail.com · 09158016216 · Mandaluyong City, Philippines · github.com/geloxh · itsangelo.pages.dev · progressive-portfolio.vercel.app

PROFILE

Results-driven with 3+ years of experience in software & web development, IT Head with systems administration, network management, and technical support. Proven ability to lead IT operations end-to-end — from infrastructure and security to user-facing applications — while delivering reliable, scalable solutions.

EXPERIENCE

- 3E Hitech Solutions Inc. — *IT Head*

Feb 2025 — Present

 - Develop and maintain System & Web applications for 3E Hitech & PowerNet Edge Solutions (HTML, CSS, JavaScript, Python, PHP, MERN, MEAN) covering UI/UX design, SEO, testing, and full deployment lifecycle.
 - Administer servers, hardware, and software; manage data backups, recovery, and system performance monitoring.
 - Oversee LAN/WAN networks, enforce security policies, monitor traffic for threats, and manage database integrity.
 - Provide Tier 1–2 user support, conduct staff training on new systems, and document IT procedures and policies.
- Outlier AI — *Python Programmer (Freelance)*

Nov 2024

 - Optimized and debugged Python code for AI training datasets; participated in cross-functional review sessions.
- Fornix Corp. — *Office & Inventory Assistant*

Oct 2024

 - Supported system management and operational record-keeping; handled on-site hardware troubleshooting.
- Foundever — *SME / Tier 2 Floor Support*

Feb – Jun 2024

 - Mentored Tier 1 agents, coordinated with operations leadership, and tracked QA-driven process updates.
- Foundever — *Tech & Chat Support Representative*

Jan 2023 – Feb 2024

 - Resolved hardware and software issues for end-users via phone and chat using structured diagnostic protocols.
 - Collaborated cross-functionally to close complex escalations, consistently achieving high CSAT scores.
